

monitor LIFTS

Monitor's Pocolift is the cost effective solution to safe access requirements where step-ladders are deemed not safe, and conventional powered access too destructive especially in small areas.

Monitor's Peco is so easy, fast and efficient to use, it's intuitive! Just step in and turn the handle! It's battery free - so no charging or acid spills and is completely power free.

With a very low floor height, the Peco is extremely operator friendly. Nice and easy to step in and out of, and a comfortable work platform. It's class! It's strong, reliable, smart!

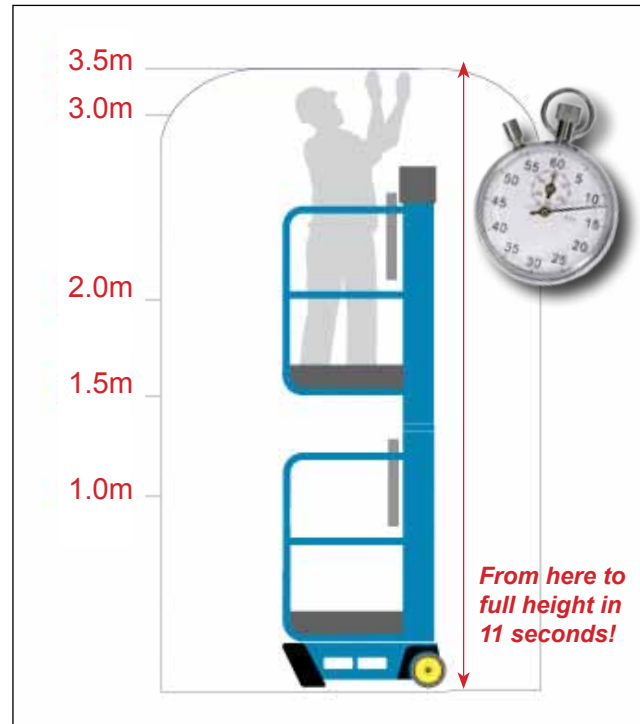

Pecolift is very 'Eco-friendly.' No batteries means no power consumption for charging, no battery acid spills, no hydrogen gases. No hydraulic oil means no spills. In fact it's carbon footprint is even smaller than it's working footprint and that's only 985mm x 700mm!

SPECIFICATIONS

Maximum working height:	3.50m
Maximum platform Height:	1.50m
Platform dimensions:	720mm(l) x 600mm(w)
Working foot print:	985mm x 700mm
Safe working load:	150 Kg (1 person + tools)
Maximum Manual Force:	200 N
Maximum gradient for operation:	0 degrees
Maximum wind force:	Internal use only
Maximum wheel force:	125 kg
Maximum castor point load:	125 kg (123kN)
Sound pressure level:	Less than 70DbA
Length:	985mm
Width:	700mm
Height:	1550mm
Weight:	180Kg
Fork pockets	Yes
Lift Cycles	Unlimited

Complies with AS1418.10

(E & OE.)

IT'S SAFE!

Auto-braked on elevation

You're always safe, fully guarded from the ground up. And its low maintenance, in fact it's virtually maintenance free, it's so simple! Stop wherever you want up to 3.5m working height.
